1. This is your kit for a Chirpy Chick Mask.

2. On the yellow sheet of card draw around the semi-circle template twice and cut out creating two eye lids.

3. Let's now colour the chick's beak in with the orange pen on the white side.

4. The black sticky back plastic sheet is perfect for creating two nostrils. Cut out, peel and stick to the chick's beak.

5. Using all the yellow/orange papers cut out a good selection of small shaped feathers.

6. Okay, time to create and design your chick mask! Glue the eyelids, beak and feathers to your mask.

7. Once again use the black sticky back plastic sheet to make a set of eye lashes. Cut out, peel and stick to eye lids.

8. Final stage - Tie a knot at one end of each of the elastic ribbons. Then thread unknotted end through the pre-punched holes from the decorate side. You may need to use your scissors to encourage the elastic ribbon through the holes. Be careful!

Have lots of fun chirping and cheeping for Spring is on its way.

Well done!
