

1. Ahoy, Me Hearties!  
This is your kit for making a Pirate Treasure Chest & Loot.

2. Firstly, cut the black sticky back plastic sheet to the same size as egg box label. Now cut out a small arch where the keyhole is, check it fits and make bigger, if needed.

3. Peel the paper back off and carefully stick in position to cover the lid of egg box. (Add glue, if needed.) Then cut out the skull & cross bones and glue to the top of lid.

4. Time to make the treasure! Using the metallic papers, glue them to **both sides** of the two pieces of white card, back and front.

5. With the marker pen, draw jewel like shapes and coins onto **one side** of the metallic sheets. Now cut out your loot. (To create coins, trace around glue lid.)

Blow Me Down.  
What a lot of Booty.  
Ahoy, Matey!
